Dmitriy Drusvyatskiy and Thomas Rothvoss awarded NSF CAREER grants

Submitted by Rose Choi on April 17, 2017 - 5:07pm

Dima Drusvyatskiy and Thomas Rothvoss have both been awarded CAREER grants under the National Science Foundation's Faculty Early Career Development Program. Thomas, who has a joint faculty position in Computer Science and Engineering, had previously received a Sloan Research Fellowship and a Packard Fellowship in Science and Engineering. Dima had previously received an Air Force Young Investigator Research award. Both work on aspects of optimization theory.
