Seminars & Other Research Activities

Main Calendar

Our main calendar displays events from all of our subcalendars, making it a good place for an overview. You can also view a list of upcoming events.

You can use the Event Categories to display specific types of events, such as Faculty Meetings, and you can use the Subcalendars to display events related to a specific event series, such as the Milliman Lectures.

Subcalendars

There are a number of mathematics-related colloquia and seminar series on campus. Some can be taken for credit.

Broad interest talks

- UW-PIMS Colloquium
- Milliman Lectures
- MathAcrossCampus

Research seminars

- Algebra and Algebraic Geometry Seminar
- Combinatorics and Geometry Seminar
- Current Topics Seminar
- Differential Geometry/PDE Seminar
- Graduate Student Analysis Seminar
- Inverse Problems Seminar
- Number Theory Seminar
- Probability Seminar
- Rainwater Seminar
- Topology Seminar
- Trends in Optimization Seminar

Undergraduate research

- Washington Experimental Mathematics Lab

Other Research Activities

- Cascade Topology Seminar
- Pacific Northwest Geometry Seminar

Mathematical Centers

- Mathematical Sciences Research Institute
- Pacific Institute for the Mathematical Sciences (PIMS)
- Machine Learning and Optimization Group at Microsoft Research
